

ATTEMPTS TO SHOOT WIFE ON TRAIN

Bullet Strikes Girl Sitting Beside Her—Wife Refused to Put End to Divorce Suit

Henderson, Ky., May 30.—Because his wife refused to become reconciled with him after having filed suit for divorce, Volly McGraw, aged 24, a prominent young farmer living in Webster county near Dixon, attempted to shoot her tonight on an L. & N. train which was pulling into the union station. Mrs. McGraw, who is 22 years old, knocked the gun aside, and the bullet struck her cousin, Mahle Shelton, age 18, who was riding with her, in the shoulder.

Mrs. McGraw had been at Dixon to give depositions in the divorce trial and was returning to her mother, Mrs. Taylor Marre of this city, with whom she is living. The husband boarded the train at Seheze and attempted to talk with his wife. She refused to have anything to do with him. He persisted in his attentions and she told conductor Gephart that he was annoying her and that she feared trouble. Conductor Gephart forced McGraw to get away from the two women several times.

Just as the train was pulling into the union station here at 9:27 o'clock McGraw walked back in the car to the seat in which his wife was sitting and pointed a revolver at her heart. As he pulled the trigger the first time the wife struck the weapon, deflecting the bullet which struck her cousin. McGraw pulled the trigger a second time but Flagman Bell caught his arm in time to save his life, the bullet narrowly missing Dr. Amelias Davis, of Mortons Gap, who was sitting behind the terrified woman.

Passengers and trainman quickly overpowered McGraw and he was arrested at the station. Miss Shelton was taken to the city hospital. The wound will not be serious.

The divorce suit was filed several months ago by Mrs. McGraw. Mr. and Mrs. McGraw formerly lived in Providence and separated while they were residents of that place. McGraw was an employee of the St. Bernard Mining Company at the time.

CHANGE IN MEXICAN POLICY

President Wilson Will Issue Statement on Mexican Situation.

Washington—President Wilson will make a statement in a few days on the Mexican situation, the White House has announced. A change in the administration "watchful waiting" policy is expected. This statement was issued "When the President's appeal for aid for the Mexicans was issued it was also stated at the executive office that a statement from the President on the present situation in Mexico might be expected within the next few days." Officials would not indicate what new move the administration is about to make, but it was suggested that famine conditions in northern Mexico make action of some sort imperative.

Steady expansion in business noted. Mainly To Orders For War Materials

STEADY EXPANSION IN BUSINESS NOTED

Mainly To Orders For War Materials

New York, May 28, Dun's Review to-morrow will say:

Steady expanding industrial operations—done mainly, but not wholly, to the big war demands—have a stimulating effect generally, although the many uncertainties of the foreign situation make for caution everywhere. Hesitancy in new enterprise, however, does not imply any lack of confidence in the future but rather a disposition to await further developments in regard to this country's diplomatic relations with Germany.

SPEAKERS CAMPAIGN AGAINST ILLITERACY

The Kentucky Illiteracy Commission announces the Speakers Campaign Against Illiteracy as covering the months of July, August and September. One hundred and twenty of Kentucky's greatest orators, led by the Governor of Kentucky, will invade every county to spur up the forces in the fight to wipe out illiteracy. Each county will have a campaign of its local speaker in each district, preliminary to the final rally. During the three months each and every school district in Kentucky will be campaigned. This is the first campaign, educational or otherwise, to be extended to each district in the State.

AMERICA MAY BECOME THE MOST HATED OF NATIONS

Views of C. W. Barron on the War Conditions That are Facing the United States

Continued Peace Means Prosperity, but With Enemies World Wide—To Aid Allies Would End the War

Boston—Clarence W. Barron, publisher of the Boston News Bureau, told the New England Street Railway Club, at the American House Thursday night, that America gravest danger in the international crisis lies in becoming the most hated of nations, by a continued success in keeping out of war. He said that with this country lined up with the Allies the war could be quickly settled.

"This country's prosperity, which inevitably must increase tremendously in the event of the Nation avoiding war, will surely make us the most hated of Nations," he said.

"England and the Allies will not be pleased to pay us 50% profit on iron and steel and munitions of war. Other nations will hate us for not assisting them. They will hardly hesitate to go into Mexico and shatter the Monroe doctrine."

"Think this over carefully, and see if it isn't for us to be definitely on one side or the other."

"We are prepared for war as no other nation is today. Our preparation is in credits. If we go to war it will not be with submarines, warships, rifles or men. Instead, we would go to war with money, the mightiest thing in war, and more important just now than vast armies. We would supply our allies with money, munitions, and our national resources."

"America saves from her yearly earnings more than all the nations at war combined, and instantaneously we could advance to England, France and Russia billions of credits, plus supplies, easily."

"If this should be turned into the scales, the Allies' credit would go up and Germany's down."

Mr. Barron reviewed the causes of the war and attributed to Germany complete responsibility. He said that Germany will never see for peace; that the Germans will fight for their idea of dominating Europe until they are shot off.

"Ideas don't perish until the people perish with them," he asserted, and predicted that at the end of three years Germany will be defeated.

MILLIONS

Hang In Balance as Result of Decision on "Five Per Cent" Clause in Tariff

Washington, May 30.—The so-called "five percent" clause of the tariff law, granting a reduction on duties to that amount on goods imported in ships, was sustained today by the customs court, which held also that a five percent rebate must be granted on all goods imported in ships of those countries with which the United States had "favored nation" treaties. As such treaties exist with the principal countries of the world, the effect of the decision is practically to reduce customs revenue by five per cent. If the decision is sustained by the United States supreme court to which it will be appealed, approximately fifteen million dollars in duties already collected must be refunded.

Work for Unmarried Men

The following notice is appearing in some of the newspapers in the smaller cities of the country:

"The DuPont Co. can provide employment for numbers of white single men, physically sound, industrious, intelligent, good character and habits, able to read and write, in their new plant at Hopewell, Va. Pay ranges from 20 to 40 cents an hour, with 20% cash bonus after two weeks of satisfactory service. There are many kinds of jobs open, and good opportunities for advancement to men who show ability. Very few of the jobs are more hazardous than those of an ordinary industrial plant."

Wrong Font

An irate patron of a restaurant called a waiter to him and said: "I found a needle in this soup. What does it mean?" "Beg pardon," said the waiter, who used to be a proofreader, "that's a typographical error. It should have been a noodle."—Ex.

SAYS U. S. INVITES WAR BY UNPREPAREDNESS

Yale President Indorses Hibben's Lake Mohonk Speech

WOULD CONTINUE NEUTRAL

Kansas City, May 30.—The United States is inviting war by its unpreparedness, according to the belief expressed here today by President Arthur T. Hadley, of Yale. President Hadley is here attending the convention of the Western Association of Yale Alumni Clubs.

"The nation's state of unpreparedness is a standing invitation to the stronger powers of the world to come and help themselves to whatever plunder of ours they may desire," he said.

"I indorse every word uttered by President Hibben, of Princeton, at the Lake Mohonk peace conference with regard to our unpreparedness and unpreparedness for war. There are two ways for a nation to become involved in an international controversy. One is to be too much prepared for war. The other is to be too little prepared for war. I believe we are in the latter boat."

Speaking of the international situation with especial reference to that between the United States and Germany he said: "The best thing for us to do is to saw wood and say nothing."

PROSPERITY TALK

Thinks the Country Is Near Most Prolonged Good Times

George M. Verety, president of the American Rolling Mill Co., believes that this country is on the verge of the most prolonged era of prosperity it has ever enjoyed.

Mr. Verety says that the country's industrial development during five years past has not kept pace with its general development. This he attributed to attacks on business.

He holds, however, that with the present apparent change of sentiment towards big business, industrial development must be resumed; and this means buying, long dammed up, proceed apace for many years. In regard to foreign trade, he thinks that America will have to supply the needs of the world after the war.

Europe he says, will get the machinery of peace as well as war material, here.

The following news item con-
veys its own argument in favor
of fire prevention and might sug-
gest care in preserving better
conditions within fire limits and
congested districts of such pro-
gressive towns as, for instance,
Earlington and Madisonville.

Fire insurance losses in United
States in 1914 totaled \$200,720,000,
increase of \$28,000,000 over 1913,
according to W. N. Kremer, presi-
dent of National Board of Fire
Underwriters. Underwriters suf-
fered loss of 4.21%. Premiums in
1914 were \$338,647,016, an increase
of \$9,000,000.

An effort is being made to pass
law in Illinois limiting the
length of freight trains to fifty
cars. Strenuous opposition to
this legislation is being made by
road officials, who contend
that limiting the length of the
trains necessarily will in-
crease the number of trains run.
They maintain, will increase
number of accidents in addi-
tion to arbitrarily increasing ex-
penses.

A thoughtful observer arises
to remark that:

"Mexicans condemned to death
proceedure in Arizona

Americans
can take on."
ently mut-

ing the death sentence of several
Mexicans, convicted of murder.

Boils Biliousness Malaria Constipation

Are You Troubled?

Dr. Pierce's Golden Medical Discovery

Perhaps this case may be similar to yours

J. Wesley Tilly of (Box 873), Selma, Cal., writes: "Gentlemen:—It gives me much pleasure to be able to send you a testimonial, if by its reaching some sufferer your medicine will do as much for him as it has for me. At the age of fourteen I was troubled with a great deal of malaria and biliousness, accompanied with the worst sort of large boils. I was persuaded by my parents, who have always been strong believers in Dr. Pierce's medicine, to try the Golden Medical Discovery. I took one bottle and the boils all disappeared, but I did not stop at one bottle, I took three and the malaria all left me and I have had no more boils to this day, thanks to the 'Golden Medical Discovery' for my relief.

For over forty years has been lending its aid to just such cases as this. In our possession we have thousands of testimonials of like character.

Perhaps you are skeptical, but isn't it worth at least a trial in view of such strong testimony? Isn't it reasonable to suppose that if it has done so much for others it can do as much for you?

Your druggist will supply you in liquid or tablet form, or you can send 50 one-cent stamps for a trial box. Address Dr. R. V. Pierce, Buffalo, N. Y.

Because it's for One Thing Only, and Earlington People Appreciate This

Nothing can be good for anything. Doing one thing well brings success.

Doan's Kidney Pills are for one thing only. For week of disordered kidneys. Here is reliable evidence of their worth.

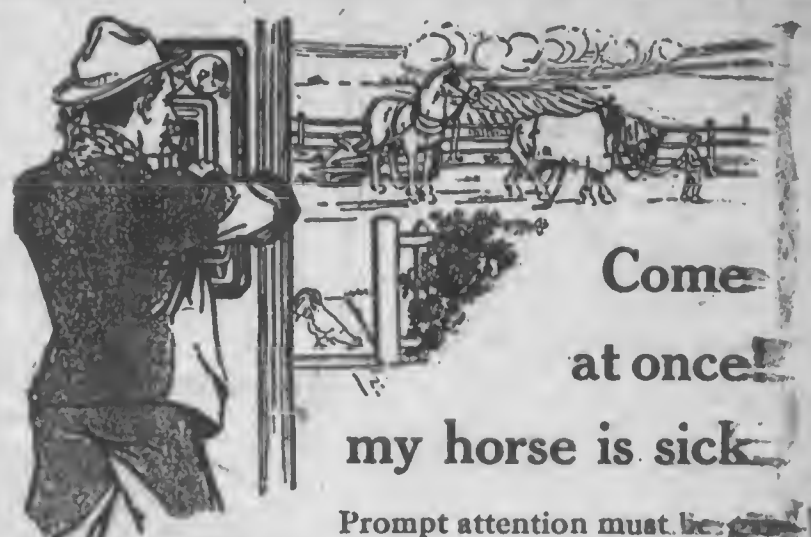

Mrs. Eva Hobbs, N. Seminary St. Madisonville, Ky., says: "I used everything that was recommended for kidney complaint, but the trouble remained. I tried plasters and different medicines, too, without success. Finally my attention was called to Doan's Kidney Pills. After taking a few doses, I felt their beneficial effect. I continue until all symptoms of kidney disease were removed. My health is now greatly improved." (Statement given May 20th, 1907.) OVER FOUR YEARS

Now Well

"Thedford's Black-Draught is the best all-round medicine I ever used," writes J. A. Steelman, of Pattonville, Texas. "I suffered terribly with liver troubles, and could get no relief. The doctors said I had consumption. I could not work at all. Finally I tried

THEDFORD'S BLACK-DRAUGHT

and to my surprise, I got better, and am to-day as well as any man." Thedford's Black-Draught is a general, cathartic, vegetable liver medicine, that has been regulating irregularities of the liver, stomach and bowels, for over 70 years. Get a package today. Insist on the genuine—Thedford's. E-70
